Notes to Condensed Consolidated Interim Financial Statements

For the three and six months ended June 30, 2024 (Unaudited)

(tabular amounts expressed in thousands of U.S. dollars, except per share amounts and where indicated)

1 Nature of operations

Entrée Resources Ltd., together with its subsidiaries (collectively referred to as the "Company" or "Entrée"), is focused on the development and exploration of mineral property interests. The Company is principally focused on its Entrée/Oyu Tolgoi JV Property in Mongolia (Note 3).

The Company has its primary listing in Canada on the Toronto Stock Exchange ("TSX") and its common shares also trade in the United States on the Over-the-Counter OTCQB Venture Market ("OTCQB") under the symbol "ERLFF".

The Company's registered office is at Suite 2900, 550 Burrard Street, Vancouver, BC, V6C 0A3, Canada.

All amounts are expressed in United States dollars, except for certain amounts denoted in Canadian dollars ("C\$").

These condensed consolidated interim financial statements have been prepared on the basis of accounting principles applicable to a going concern which assumes that the Company will be able to continue for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. The Company estimates it has adequate financial resources to satisfy its obligations over the next 12 month period.

2 Basis of presentation

The Company prepares its condensed consolidated interim financial statements in accordance with International Accounting Standards 34, Interim Financial Reporting ("IAS 34"), under International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretation of the International Reporting Interpretations Committee ("IFRIC"). These should be read in conjunction with the Company's annual audited consolidated financial statements as at and for the year ended December 31, 2023 ("annual financial statements"). The accounting policies and critical estimates applied by the Company in these condensed consolidated interim financial statements are the same as those applied in the Company's annual financial statements, unless otherwise stated.

The condensed consolidated interim financial statements were approved by the Audit Committee of the Board of Directors on August 7, 2024.

3 Oyu Tolgoi assets

Entrée/Oyu Tolgoi JV Property

The Company has a carried 20% participating joint venture interest in two of the Oyu Tolgoi project deposits, and a carried 20% or 30% participating joint venture interest (depending on the depth of mineralization) in the surrounding land package located in the South Gobi region of Mongolia (the "Entrée/Oyu Tolgoi JV Property"). The Entrée/Oyu Tolgoi JV Property is comprised of the eastern portion of the Shivee Tolgoi mining licence, which hosts the Hugo North Extension copper-gold deposit, and all of the Javhlant mining licence, which hosts the majority of the Heruga copper-gold-molybdenum deposit. The Shivee Tolgoi and Javhlant mining licences were granted by the Mineral Resources and Petroleum Authority of Mongolia in October 2009. Title to the two licences is held by the Company.

In October 2004, the Company and Turquoise Hill Resources Ltd. ("Turquoise Hill") entered into an arm's-length Equity Participation and Earn-In Agreement which was amended in November 2004 (the "Earn-In Agreement"). Under the Earn-In Agreement, Turquoise Hill agreed to purchase equity securities of the Company and was granted the right to earn an interest in what is now the Entrée/Oyu Tolgoi JV Property. Most of Turquoise Hill's rights and obligations under the Earn-In Agreement were subsequently assigned by Turquoise Hill to what was then its wholly-owned subsidiary, Oyu Tolgoi LLC ("OTLLC"). The Government of Mongolia subsequently acquired a 34% interest in OTLLC from Turquoise Hill.

On June 30, 2008, OTLLC gave notice that it had completed its earn-in obligations by expending a total of \$35 million on exploration of the Entrée/Oyu Tolgoi JV Property. OTLLC earned an 80% participating interest in all minerals extracted below a sub-surface depth of 560 metres from the Entrée/Oyu Tolgoi JV Property and a 70% participating interest in all minerals extracted from surface to a depth of 560 metres from the Entrée/Oyu Tolgoi JV Property. In accordance with the

Notes to Condensed Consolidated Interim Financial Statements

(tabular amounts expressed in thousands of U.S. dollars, except per share amounts and where indicated)

Earn-In Agreement, the Company and OTLLC formed a joint venture (the "Entrée/Oyu Tolgoi JV") on terms annexed to the Earn-In Agreement (the "JVA").

The portion of the Shivee Tolgoi mining licence outside of the Entrée/Oyu Tolgoi JV Property, Shivee West, is 100% owned by the Company, but is subject to a right of first refusal by OTLLC. In October 2015, the Company entered into a License Fees Agreement with OTLLC, pursuant to which the parties agreed to negotiate in good faith to amend the JVA to include Shivee West in the definition of Entrée/Oyu Tolgoi JV Property. The parties also agreed that the annual licence fees for Shivee West would be for the account of each joint venture participant in proportion to their respective interests, with OTLLC contributing the Company's 20% share charging interest at prime plus 2% (Note 5).

The conversion of the original Shivee Tolgoi and Javhlant exploration licences into mining licences was a condition precedent to the Investment Agreement (the "Oyu Tolgoi Investment Agreement") between Turquoise Hill, OTLLC, the Government of Mongolia and Rio Tinto International Holdings Limited. The licences are part of the contract area covered by the Oyu Tolgoi Investment Agreement, although the Company is not a party to the Oyu Tolgoi Investment Agreement. The Shivee Tolgoi and Javhlant mining licences were each issued for a 30 year term and have rights of renewal for two further 20 year terms.

As of June 30, 2024, the Entrée/Oyu Tolgoi JV had expended approximately \$42.3 million (December 31, 2023 - \$41.9 million) to advance the Entrée/Oyu Tolgoi JV Property. Under the terms of the Entrée/Oyu Tolgoi JV, OTLLC contributed on behalf of the Company its required participation amount charging interest at prime plus 2% (Note 5).

Investment - Entrée/Oyu Tolgoi JV Property

For accounting purposes, the Company treats its interest in the Entrée/Oyu Tolgoi JV as a 20% equity investment. Historically, all Company expenditures related to its interest in the Entrée/Oyu Tolgoi JV have been expensed as incurred through the statement of comprehensive loss or recognized as part of the Company's share of the loss of the joint venture.

The Company's share of the loss of the joint venture was \$0.13 million for the six month period ended June 30, 2024 (2023-\$0.03 million). The joint venture has nominal current assets and liabilities, \$0.4 million of non-current assets and \$42.3 million of non-current liabilities. The loss for the joint venture for the six month period ended June 30, 2024 was \$0.3 million (2023 –\$0.1 million).

The Entrée/Oyu Tolgoi JV investment carrying value at June 30, 2024 was \$0.4 million (December 31, 2023 - \$0.4 million) and was recorded in Oyu Tolgoi assets in the statement of financial position.

Interest expense on the lease liability amounted to \$0.02 million for the six month period ended June 30, 2024 (2023 - \$0.02 million). During the six month period ended June 30, 2024, lease payments made amounted to \$0.06 million (2023 - \$0.06 million).

5 Loan payable to Oyu Tolgoi LLC

Under the terms of the Entrée/Oyu Tolgoi JV (Note 3), Entrée has elected to have OTLLC contribute funds to approved joint venture programs and budgets on the Company's behalf. Interest on each loan advance shall accrue at an annual rate equal to OTLLC's actual cost of capital or the prime rate of the Royal Bank of Canada, plus two percent (2%) per annum, whichever is less, as at the date of the advance. The loan is non-recourse and will be repayable by the Company monthly from ninety percent (90%) of the Company's share of available cash flow from the Entrée/Oyu Tolgoi JV. In the absence of available cash flow, the loan will not be repayable. The loan is not expected to be repaid within one year.

During the six months ended June 30, 2024, the Company recorded interest expense of \$0.2 million in connection with the loan (2023 - \$0.2 million).

6 Deferred revenue

The Company has an agreement to use future payments that it receives from its mineral property interests to purchase and deliver gold, silver and copper credits to Sandstorm Gold Ltd. ("Sandstorm") (the "Sandstorm Agreement").

Under the terms of the Sandstorm Agreement, Sandstorm provided the Company with a net deposit of C\$30.9 million (the "Deposit") in exchange for the future delivery of gold, silver and copper credits equivalent to:

- 28.1% of Entrée's share of gold and silver, and 2.1% of Entrée's share of copper, produced from the Shivee Tolgoi mining licence (excluding Shivee West); and
- 21.3% of Entrée's share of gold and silver, and 2.1% of Entrée's share of copper, produced from the Javhlant mining licence

Upon the delivery of metal credits, Sandstorm will make a cash payment to the Company equal to the lesser of the prevailing market price and \$220 per ounce of gold, \$5 per ounce of silver and \$0.50 per pound of copper (subject to inflation adjustments). After approximately 8.6 million ounces of gold, 40.3 million ounces of silver and 9.1 billion pounds of copper have been produced from the entire current Entrée/Oyu Tolgoi JV Property, the cash payment will be increased to the lesser of the prevailing market price and \$500 per ounce of gold, \$10 per ounce of silver and \$1.10 per pound of copper (subject to inflation adjustments). To the extent that the prevailing market price is greater than the amount of the cash payment, the difference between the two will be credited against the Deposit.

The Deposit has been accounted for as deferred revenue on the statement of financial position and is subject to foreign currency fluctuations upon conversion to US dollars at each reporting period. The Deposit contains a significant financing component and, as such, the Company recognizes a financing charge at each reporting period and grosses up the deferred revenue balance to recognize the significant financing element that is part of this contract at a discount rate of 8%.

This arrangement does not require the delivery of actual metal, and the Company may use revenue from any of its assets to purchase the requisite amount of metal credits.

7 Share capital

a) Common shares

The Company's authorized share capital consists of unlimited common shares without par value. At June 30, 2024, the Company had 203,365,954 (December 31, 2023 – 203,344,954) shares issued and outstanding.

Notes to Condensed Consolidated Interim Financial Statements

For the three and six months ended June 30, 2024 (Unaudited)

(tabular amounts expressed in thousands of U.S. dollars, except per share amounts and where indicated)

b) Share options

The Company provides share-based compensation to its directors, officers, employees, and consultants through grants of share options.

The Company has adopted a stock option plan (the "Plan") to grant options to directors, officers, employees and consultants to acquire up to 10% of the issued and outstanding shares of the Company. Options granted can have a term of up to ten years and an exercise price typically not less than the Company's closing share price on the TSX on the last trading day before the date of grant. Vesting is determined at the discretion of the Board of Directors.

Under the Plan, an option holder may elect to transform an option, in whole or in part and, in lieu of receiving shares to which the terminated option relates (the "Designated Shares"), receive the number of shares, disregarding fractions, which, when multiplied by the weighted average trading price of the shares on the TSX during the five trading days immediately preceding the day of termination (the "Fair Value" per share) of the Designated Shares, has a total dollar value equal to the number of Designated Shares multiplied by the difference between the Fair Value and the exercise price per share of the Designated Shares.

The Company uses historical data to estimate option exercise, forfeiture and employee termination within the valuation model. The risk-free interest rate is based on a treasury instrument whose term is consistent with the expected term of the share options. Since the Company has not paid and does not anticipate paying dividends on its common shares, the expected dividend yield is assumed to be zero. Companies are required to utilize an estimated forfeiture rate when calculating the expense for the reporting period. Based on the best estimate, management applied the estimated forfeiture rate of nil in determining the expense recorded in profit or loss.

During the six months ended June 30, 2024, share options to purchase 21,000 common shares with an exercise price of C\$0.77 were exercised resulting in gross proceeds of C\$16,170 being received by the Company.

Share options for the six months ended June 30, 2024 are summarized as follows:

	Number of share options (000's)	Weighted average exercise price C\$
Outstanding – December 31, 2023	5,414	0.71
Exercised	(21)	0.77
Outstanding – June 30, 2024	5,393	0.71

As at June 30, 2024, the following 5,392,500 share options were outstanding and exercisable (December 31, 2023 – 5,413,500) with an average weighted exercise price of C\$0.71 (December 31, 2023 – C\$0.71).

c) Deferred share units

Deferred share units ("DSUs") are granted to the Company's directors and executives as a part of compensation under the terms of the Company's deferred share unit plan (the "DSU Plan"). DSUs vest when certain conditions as stated in the DSU Plan are met, except in the event of an earlier change of control, in which case, the DSUs will vest fully upon such change of control.

At June 30, 2024, the following DSUs were outstanding:

	Number of DSUs (000's)
Outstanding – June 30, 2024	2,276

Each vested DSU entitles the holder to receive one common share of the Company or a cash payment equivalent to the closing price of one common share of the Company on the TSX on the last trading day preceding the DSU's redemption date.

8 Financial instruments

a) Fair value classification of financial instruments

The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (prices) or indirectly (derived from prices). Level 3 inputs are for the assets or liabilities that are not based on observable market data (unobservable inputs).

The Company's financial instruments consist of cash and cash equivalents, receivables, deposits, accounts payable and accrued liabilities, loan payable and lease liabilities.

The carrying values of cash and cash equivalents, receivables and accounts payable and accrued liabilities approximate their fair value due to their short terms to maturity.

The following table summarizes the classification and carrying values of the Company's financial instruments at June 30, 2024:
